Reliable Facilities & Environmental Services

A practical, service-focused partner for clean, safe and well-maintained working environments.

EPCOR (Pty) Ltd provides facilities and environmental services that support the cleanliness, appearance and day-to-day upkeep of commercial and public environments. Its service offering brings together commercial cleaning, grounds maintenance, vegetation management and waste-management support.

CORE SERVICE AREAS	OPERATIONAL EQUIPMENT	WASTE-MANAGEMENT LOCATIONS
Commercial cleaning Gardening & landscaping Grass cutting & tree care Waste management	Company-owned grass-cutting machines, brush cutters, chainsaws and vehicles	Gauteng Western Cape

Our Service Offering

Commercial Cleaning	Cleaning of offices, commercial premises and shared facilities, including routine cleaning and general hygiene upkeep, according to the agreed scope and service schedule.
Gardening & Landscaping	Routine garden care, lawn maintenance, weeding, pruning and upkeep of landscaped areas to maintain neat, presentable outdoor spaces.
Grass Cutting & Grounds Maintenance	Grass cutting and vegetation control for commercial, institutional and municipal grounds, using company-owned grass-cutting equipment.
Tree Maintenance	Tree and vegetation maintenance support, including appropriate pruning and chainsaw-related work undertaken by suitably trained and authorised personnel.
Waste Management	Waste-handling, collection coordination and site waste-management support, aligned to client requirements and applicable municipal and environmental rules.

Operational Strengths

Company-owned equipment: EPCOR owns grass-cutting machines, brush cutters, chainsaws and vehicles to support mobilisation and routine service delivery.

Integrated service offering: The combination of cleaning, grounds maintenance and waste-management services can help clients coordinate related site services through one service provider.

Geographic focus: EPCOR's waste-management activities are identified for Gauteng and the Western Cape, subject to contract scope, approvals and operational arrangements.

Service-focused delivery: Work is planned around the client's site requirements, agreed schedules, service standards and reporting arrangements.

Typical Delivery Approach

1. Site assessment	Confirm the site, service scope, access arrangements, risks and required service frequency.
2. Work planning	Prepare a task schedule, allocate personnel and equipment, and agree service standards with the client.
3. Service execution	Carry out the agreed cleaning, gardening, grass-cutting, tree-maintenance or waste-management tasks.
4. Quality and safety checks	Monitor completed work, address identified issues and apply appropriate safety controls.
5. Reporting and review	Provide service records and communicate operational matters in line with the contract.

Commitment to Responsible Service

EPCOR aims to deliver dependable services through clear work planning, suitable equipment, careful site practices and communication with clients. Work is undertaken in accordance with the agreed contract scope and applicable legal, environmental, health and safety requirements. Specialist activities are subject to the required competent personnel, permissions and certifications.
